National Senior Cryptologic Course #12

"Day at CIA"

Tuesday, 21 November 1972

Room 1A-07 - Headquarters

One of the missions of the National Cryptologic School is to conduct courses of instruction related to cryptologic functions which will "Enhance the preparation of selected military officers and key civilians for major command, staff and policy-making positions within the national and international security structure."

The National Senior Cryptologic Course is the most advanced of several developed to fulfill this mission.

The first course was conducted in 1967. This is the 12th running and the 8th time the course has had a "Day at CIA."

Twenty-four out of the 44 students enrolled in the present class are from NSA; others are from military cryptologic assignments, from DIA and three are from the Agency (checked off in red on attached roster -- _____. 25
Thirty-two of the students are civilians, predominantly at the GS-14 and GS-15 levels and 12 are officers of field grade rank representing all four services. There are three female students in the class. The Commandant of the National Cryptologic School (since about July of this year), _____ as well as 25 two or three faculty members will accompany the class.

Prior to the "Day at CIA", which falls in the 6th week of the course, the class will have had presentations on the NSC, PFIAB, the Intelligence Community and an Introduction to CIA. Later on in the Course the class will spend a day at NPIC.

All students have SI, T and KH clearances. The Course began on 16 October and will end on 13 December.
